NATIONAL ENERGY TECHNOLOGY LABORATORY
Albany, OR • Morgantown, WV • Pittsburgh, PA

U.S. DEPARTMENT OF ENERGY

March 29, 2010

Subject: Department of Energy (DOE), National Energy Technology Laboratory (NETL)
Funding Opportunity Announcement (FOA): DE-FOA0000016
Titled, "*Combined Heat & Power Systems Technology Development and Demonstration*"
Closing Date: August 4, 2009

FOA Status Notification (March 2010)

Due to unexpected delays in the selection process, DOE/NETL now anticipates notifying Applicants selected for award during the third quarter of Fiscal year 2010 (between April and June 2010), and making awards for the subject FOA during the fourth quarters of Fiscal Year 2010 (between July and September 2010).

DOE/NETL will notify each Applicant in writing (via a letter sent electronically and/or hard copy) whether they are being selected or not. Please do not contact the Contract Specialist or me to request a status update because DOE/NETL will publically post any additional status updates regarding this FOA in the future on FedConnect (question section for this FOA) and on NETL's website at http://www.netl.doe.gov/business/solicitations/index.html.

DOE/NETL can only review the information contained in your application at the time of submission. If your application is selected for negotiations leading to an Award, you will have an opportunity to update information/submission files.

Please contact the Contract Specialist, Jane Weaver, via the contact information below only if you would like to withdraw your application from consideration. Thank you for your interest in working with the Government.

Sincerely,

Juliana L. Heynes
Contracting Officer
Acquisition and Assistance Division
