Help Make the Earth A BETTER PLACE

Reduce!

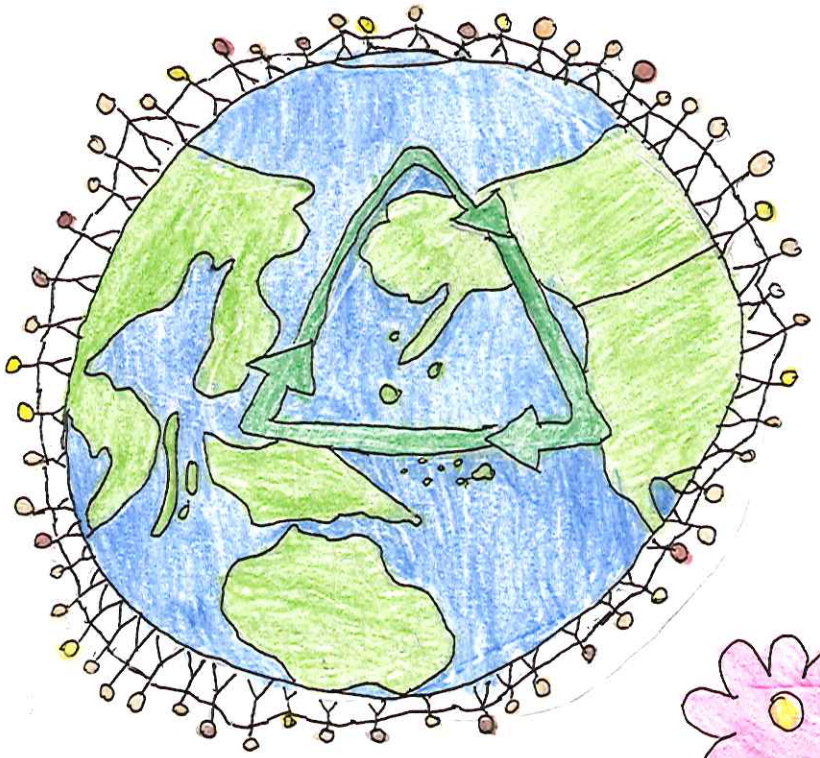
Reuse!

Recycle!

Don't litter!

Pick up trash!

Make a change and clean your COMMUNITY!



Ways to support the earth

- Plant a garden and trees. This makes better oxygen.
- Ride a bike or walk to nearby places rather than riding a car. This reduces global warming.
- Turn off the faucet while brushing your teeth. This saves gallons of water.
- Reuse old worn clothing as cleaning rags. This way you don't throw away as much.

Lower the thermostat by two degrees in colder weather and higher it by two degrees in hotter weather. It keeps out carbon dioxide!

Protect Earth's natural habitats and creatures.
