

***EPA Hg CEM
Long-Term Field Testing***

Jeffrey V. Ryan
US EPA Office of Research and Development

EPRI Mercury Measurements Workshop
Pittsburgh Airport Hilton
July 13, 2004

Purpose

- Better understand long-term Hg CEM operations
- Furthered advancement of Hg CEM technologies
- Optimize candidate test procedures

Approach

- Long-term (6-8 months)
- Implement proposed Hg CEM pre-certification and continued operation procedures
- Vendors to actively support their technologies
