

Fuels from Algae

Isaac Berzin, Ph.D.

Founder, GreenFuel Technologies, Cambridge USA
Director, Institute for Alternative Energy Policy, IDC Herzlia

Microalgae

Where is the debate?

Units of Operation

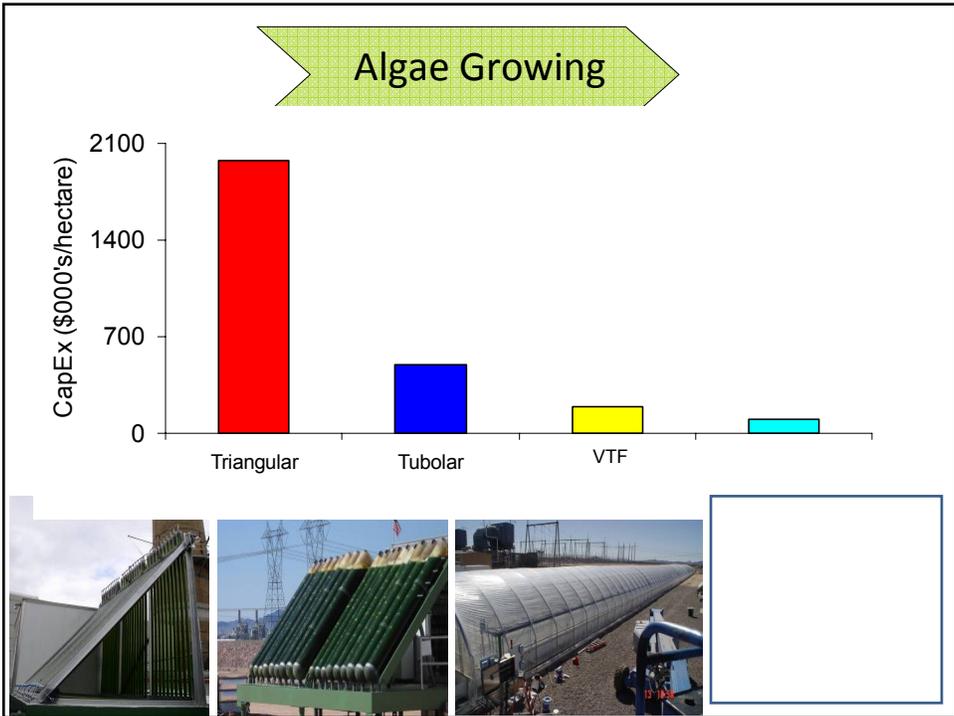

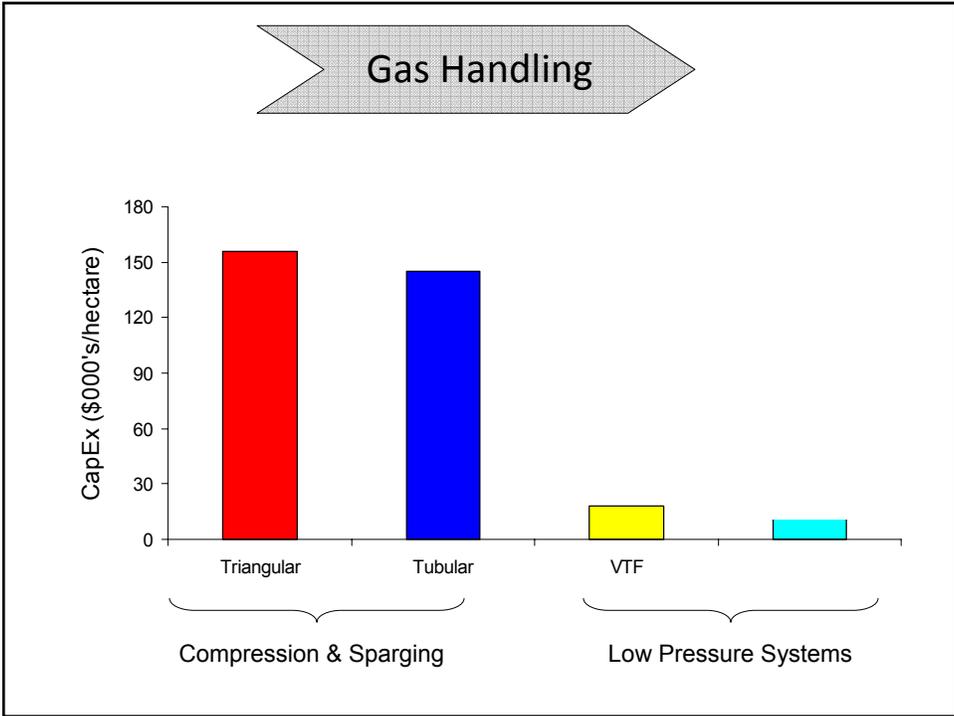

Taking flue gas to the adjacent algae farm

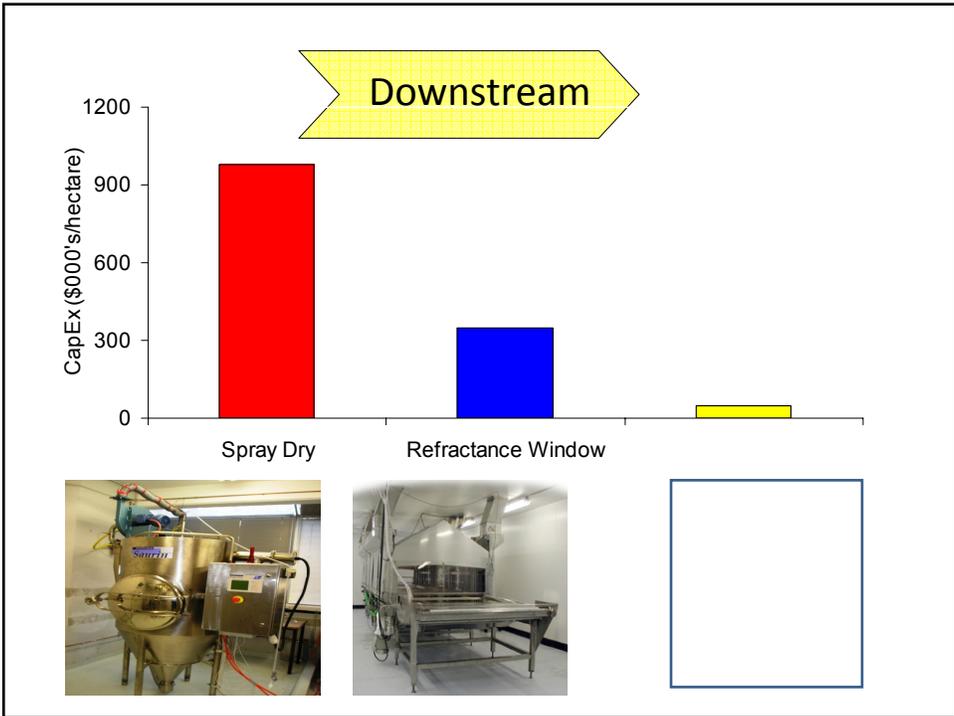

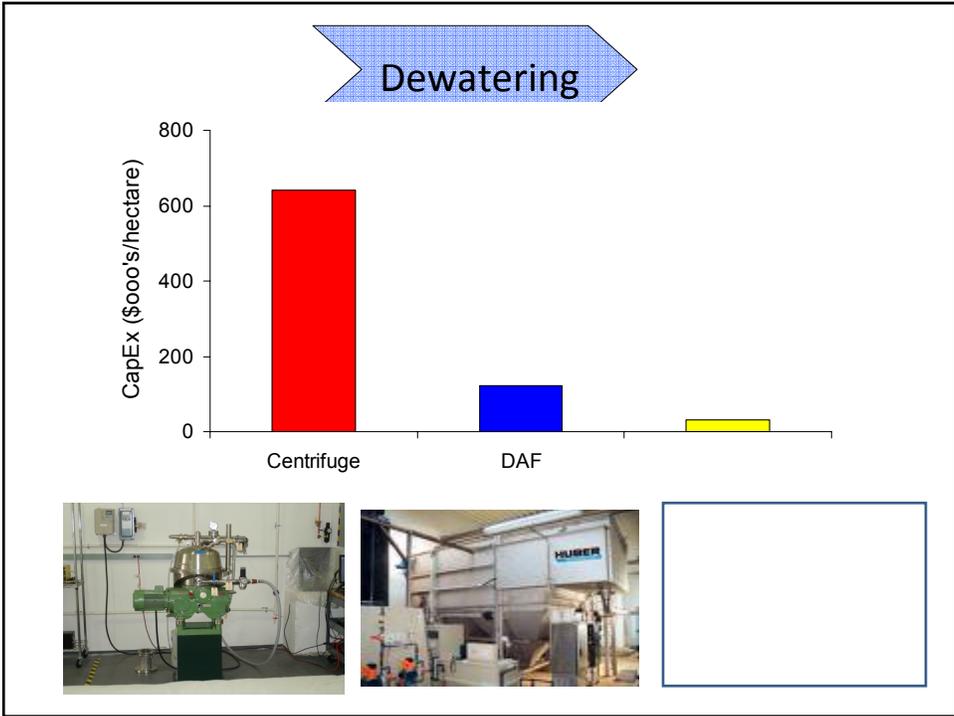

Growing algae and harvesting algae slurry

Separating algae from water

Drying and/or extracting algal oil

Farming algae at scale requires high efficiency *and* low cost

And...

- Heat management
- Contamination management
- Value of algae (\$/m²/d)
- ROI

Conclusions
