W.Va. Clean State Program Recent Accomplishments

Kelly A. Bragg

2009 Clean Cities Eastern States Coordinator Peer Exchange

Pittsburgh, PA

June 23-25, 2009

Coalition Status and Sustainability

- Current Status
 - Program housed in state energy office
 - Part-time coordinator (10 hours/week)
- Membership Structure / Strategies
 - No dues
 - Prospective members invited through letter from coordinator

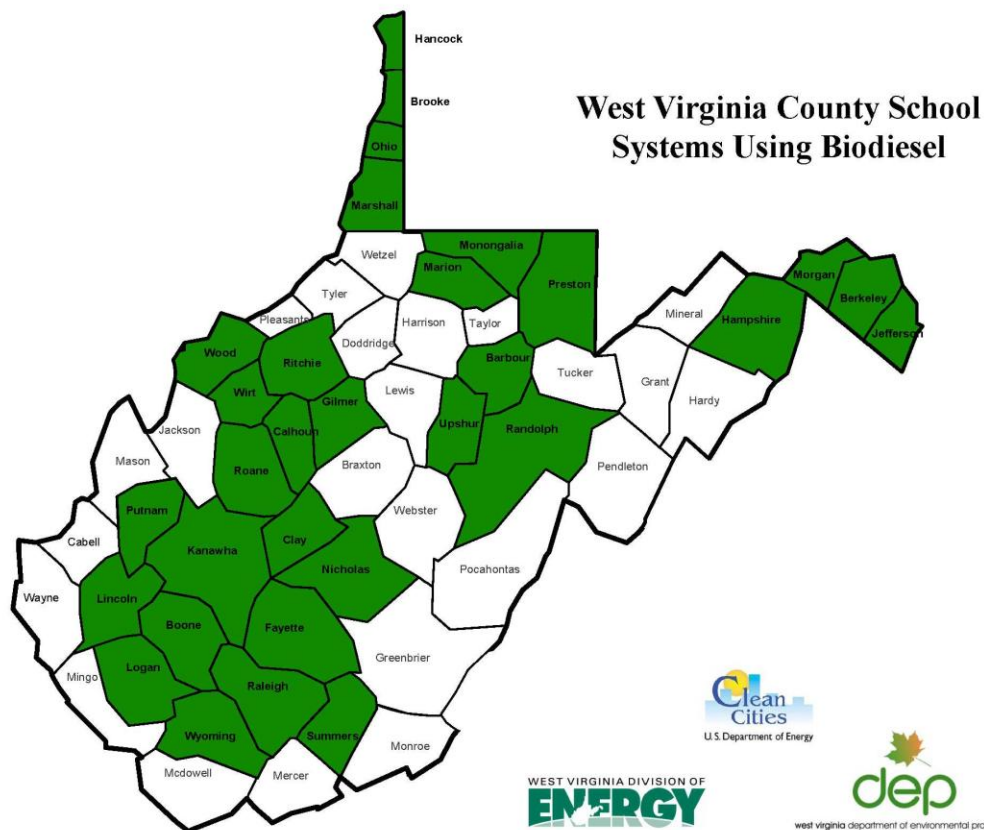

Significant/Noteworthy Projects & Activities

- Coordinator provides technical assistance
 - Many inquiries about municipal/residential WVO projects; Alabama guidelines most popular request
 - Information about CNG conversions second most popular topic

Significant/Noteworthy Projects & Activities

- 31 county school systems use biodiesel blends in their buses, up from 25 in spring 2008
- Program distributes biodiesel stickers for transportation directors, a visible reminder to state residents sharing the roads with cleaner, greener vehicles

Significant/Noteworthy Projects & Activities

NETL's Hydrogen Research &
Development/ Test & Evaluation Platform

- Development of hydrogen production and dispensing facility
- Grid electricity to split water
- Fuel used by Yeager Airport, 130th Air Wing/W.Va. Air National Guard

Significant/Noteworthy Projects & Activities

- Mountain States Hydrogen Business Council's 5th Annual Hydrogen Implementation Conference
- August 17-19, 2009, Charleston, W.Va.
- Workshop on hydrogen for first responders presented by the National Alternative Fuels Training Consortium based in Morgantown
