Clean Communities of CNY Recent Accomplishments & Future Goals

Barry Carr, Coordinator

2009 Clean Cities Eastern States Coordinator Peer Exchange
Pittsburgh, PA
June 23-25, 2009

Coalition Status and Sustainability

- Current Status
 - Currently volunteering on a part time basis, 15-20 hrs/wk
- Membership Structure / Strategies
 - Industry contacts through my consultant contracts, local, state, and federal trade allies and government
- Steps to Become Self-Sustaining
 - Begin charging membership fee
 - Charge Management fee for successfully funded projects
 - Continue to pressure SEO and local govt. for needed funding

Significant/Noteworthy Projects & Activities

- Cuse Car AFV/Hybrid Car Share Program, Toyota PHEV Demonstration Program, National Grid DOE Grant Proposals
- City of Syracuse H2/HCNG Project
- City of Syracuse Presentation at ICLEA
- Cong. Maffei Stakeholders Event/GRCC Event
- Infrastructure (H2, CNG, Electric); Vehicles: Hybrid (Light and HD), Propane, CNG, PHEV_{3s}

Lessons Learned

- Tie-in to Local Congressman, partner with for-profit activities to leverage local CC program, work with local utility support program, partnership with COE and US GBC
- Two major items: Lack of \$ from SEO to date and amount of time necessary to support DOE/Economic Stimulus proposals for members

Goals for 2009 & Beyond

- Partnering with Cuse Car membership to add a fee for CC funding access. Educate self/coalition on grant procurement activities, upgrade website and issue newsletter
- US GBC, Green Core Marketing Team, ICLEA, NYSERDA (all branding opportunities, and other Upstate NY CCs
- Continue to educate private clients re: CC programs and opportunities
