

Regional Sequestration Technology Training Projects Kick-Off Meeting

*Regional Carbon Sequestration Partnerships Annual
Review Meeting, November 16-19, 2009*

Regional Sequestration Technology Training

Develop regional sequestration technology training to facilitate transfer of knowledge and technologies required for site development, operations, and monitoring of commercial CCS projects

- *Focus on the applied engineering and science of CCS for site developers, geologists, engineers, and technicians.*
- *Provide a technology transfer platform for CO₂ sequestration related technology information and insights on a basin scale level*

Regional Sequestration Technology Training

Activity 1 - Implement Sponsorship Development Program

Projects selected for award self-sustained technology program that will continue, long term, without Federal government support...

Activity 2 - Development of Short Courses on CCS Technologies

Projects selected for award will work with experts in the field to identify and develop training materials for Professionals...

Activity 3 - Regional Training-Outreach and Networking

Projects selected for award will conduct training of CCS Technologies...

Activity 4 - Perform Regional/Basin Technology Transfer

Projects selected for award shall transfer technology with various outreach materials and coordination of Regional/ Basin efforts...

Activity 5 - Plan and Manage the Recipient's Regional Program

Projects selected for shall monitor performance, maintain regional expertise, support Advisory Board, participate in working group environment...
