

Report Covers

Templates have been developed in both Word and PowerPoint to assist you in designing report covers. These templates continue NETL's desire for institutional consistency in design of all of its communications materials.

In PowerPoint, select

File
New
General
NETLrpt

In Word, select

New
NETL Templates

Three different templates are available in Word. The first, Report-A, should be used if you are not planning on using a back cover on your report (it contains both the NETL logo and the DOE seal). The second, Report-B, should be used if you will use a back cover (it contains the NETL logo only). The third, Report-C, is the back cover (it contains the DOE seal).

Questions may be directed to Vicki L.Harbaugh at (304) 285-4512.

Proceedings of the NETL Workshop on Fuel Cell Modeling

DOE/NETL-2000/1128

Speeding the Progress of Fuel Cell Development

April 18, 2000

Hosted by

National Energy Technology Laboratory
3610 Collins Ferry Road
Morgantown, WV 26505

Workshop Organizers:
Dr. R.S. Gemmen/NETL
Dr. J.R. Selmann/IIT
