

**DIRECTIONS TO ARGONNE NATIONAL LABORATORY (ANL) OFFICES  
955 L'ENFANT PLAZA, NORTH, SW, SUITE 6000  
WASHINGTON, DC 20024-2168  
(Receptionist: 202-488-2400)**

ANL offices are located on the 6th floor of the L'Enfant Plaza North Building. The L'Enfant Plaza Hotel (**closed for renovations**) is the center building in the Plaza. The North Building is the one closest to the Forrestal Building (DOE Hq); or, if you are in the Plaza and facing the L'Enfant Plaza Hotel, the North Building is to your left. The lowest level in the North Building is the Promenade level (shopping mall/food court), the First Floor or Plaza Level, serves as the main entrance from the outside and is one floor above the Promenade.

**From the Metro:**

L'Enfant Plaza is located at the L'Enfant Plaza metro stop and is served by the Orange, Blue, Green, Silver, and Yellow lines (only one stop from the Pentagon on the Yellow line). Use the "9th and D Street" exit from the metro and enter the Promenade Level (the underground food court/shopping mall). After entering the Promenade, turn right at Roti and continue walking to the signage that will direct you to the right in the direction of the D street (turning right at the Dress Barn store) which will lead you to the two elevators located on the right just before the steps leading down towards the D Street exit of the promenade. Take the elevator to the 6th floor where you will see the entrance to the ANL DC Office.

[More information about the Elevators in the North Building:

All four elevators in the North Building run between the main lobby on the Plaza level (the First Floor) and the 6th floor. Elevators 1 & 2 also serve the Promenade level (one floor below the Plaza level). The Plaza level is designated by the "1" in the elevator; the Promenade level is designated by the "PR."

**From Parking Garages (the street parking is almost non-existent):**

Two parking garages are readily accessible to L'Enfant Plaza North; Ace Parking operates both. The first is located under the Aerospace Building at 903 D Street; the second is located under the L'Enfant Plaza complex itself.

If you use the Aerospace Building lot, exit the building from its lobby on D Street, and enter 955 L'Enfant Plaza via the glass doors directly across the street. If you are entering the North Building at the Promenade Level; walk up the stairs and 2 elevators are located on the left. Take the elevator to the 6th Floor. (Note: This garage closes at 7:00 P.M.)

If you would like to park in the L'Enfant Plaza complex (ACE Parking), take D Street and turn south onto 10<sup>th</sup> Street. Follow the sign to "L'Enfant Plaza Parking" to enter the garage. (Note: This garage closes at 7:00 P.M.)

After parking, follow the signs on the pillars in the garage that read "Elevator Stairs" that leads to these painted signs.

**Elevator entrance for garage level (G1)**

**Elevator entrance for garage level (G2)**

**Make sure to use the "470" elevators. If you go in the 490 elevators, you will end up on the opposite side of the plaza and away from the ANL DC office.**

When you get into the elevator, push the PL "Plaza" button and it will lead you a set of glass doors going outside. When you do, you should see a glass atrium structure with the sign "L'Enfant Plaza" outside. Go outside and turn to your right. Enter the door that reads "955". When you enter inside, walk the path which includes making two lefts to the lobby that has 4 elevators. From there, go up the 6<sup>th</sup> floor and you will see Argonne National Laboratory through the glass doors.
