National Carbon Capture Center: Post-Combustion Focus Project NT0000749

Doug Maxwell

2010 NETL CO_2 Capture Technology Meeting

September 15, 2010

SOUTHERN COMPANY

Southern Company Facts and Figures

- Regulated Utilities
  - Alabama Power
  - Georgia Power
  - Gulf Power
  - Mississippi Power
  - Southern Nuclear
- Competitive Power
  - Southern Power
  - Southern Generation
- Other
  - Southern LINC Wireless
  - Southern Telecom

- >42,900 MW of capacity
- Diversified sources of energy (2009 generation)

  -57% coal -23% gas -16% nuclear -4% hydro

ACSI

"The highest rated electric utility in America by the American Customer Satisfaction Index over the past 10 years."

SOUTHERN COMPANY

National Carbon Capture Center

- New Cooperative Agreement DE-NT0000749 effective October 1, 2008 for five years through September 31, 2013

- National Carbon Capture Center established at Power Systems Development Facility in Wilsonville, AL

DOE/NETL Project Manager – Mike Mosser

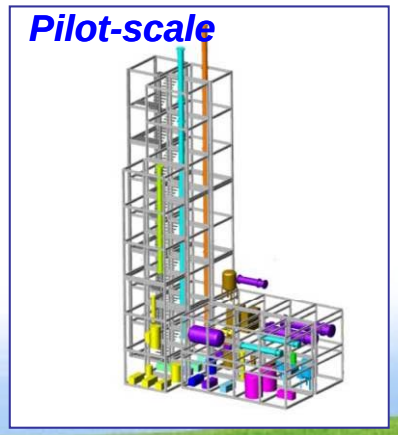
The National Carbon Capture Center

Managed and Operated for DOE by Southern Company

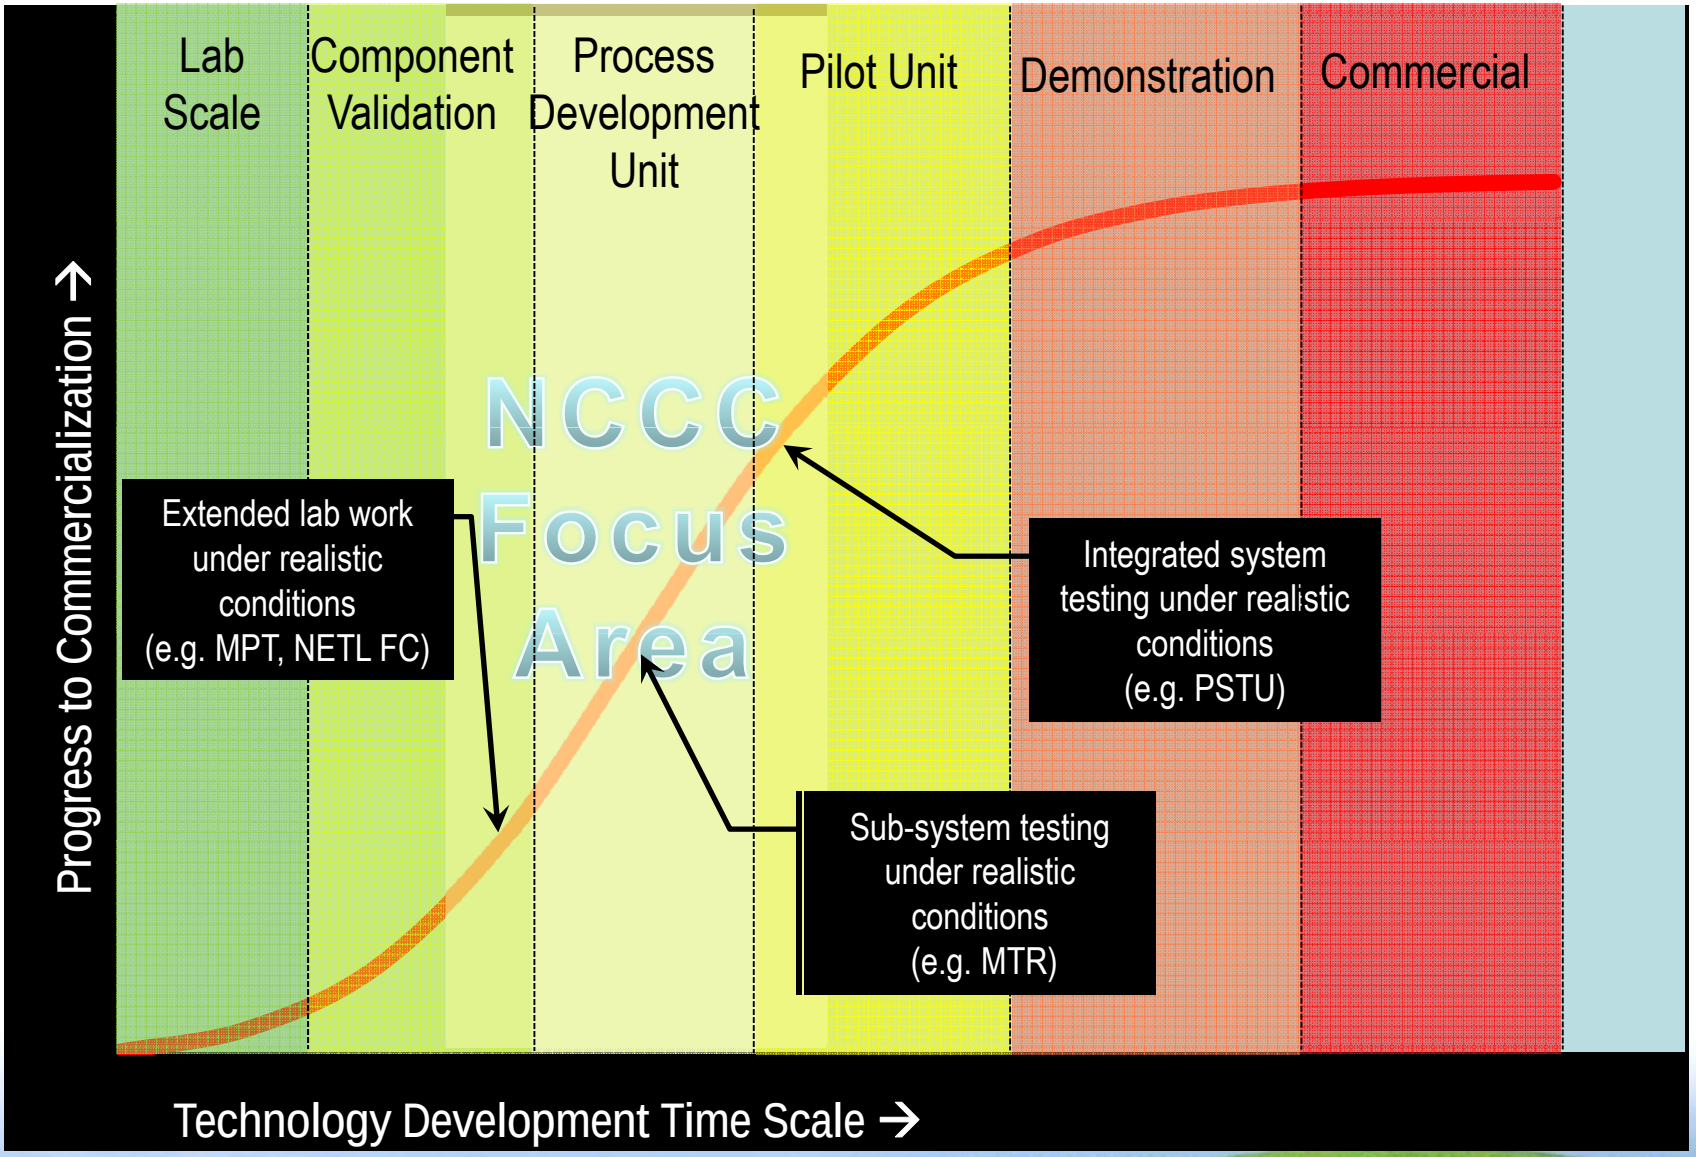
Bringing together science and innovation in technology development, along with real-world testing capability, to achieve cost-effective and reliable capture of carbon dioxide from coal-based power generation.

- Flexible testing at various scales
- Facilities for scale-up from bench to engineering-scale
- Collaboration with wide variety of participants and partners
- Finding “best-in-class” technology
- Accelerated path to cost-effective CO2 capture technology
- All 3 major areas of CO2 Capture:
  -Post Combustion
  -Pre-combustion
  -Oxy-combustion



SOUTHERN COMPANY

Focus of NCCC Technical Program



SOUTHERN COMPANY

Located at the Power Systems Development Facility (PSDF) in Wilsonville, Alabama

Pre-combustion CO2 capture facility

Post-combustion CO2 capture facility

SOUTHERN COMPANY

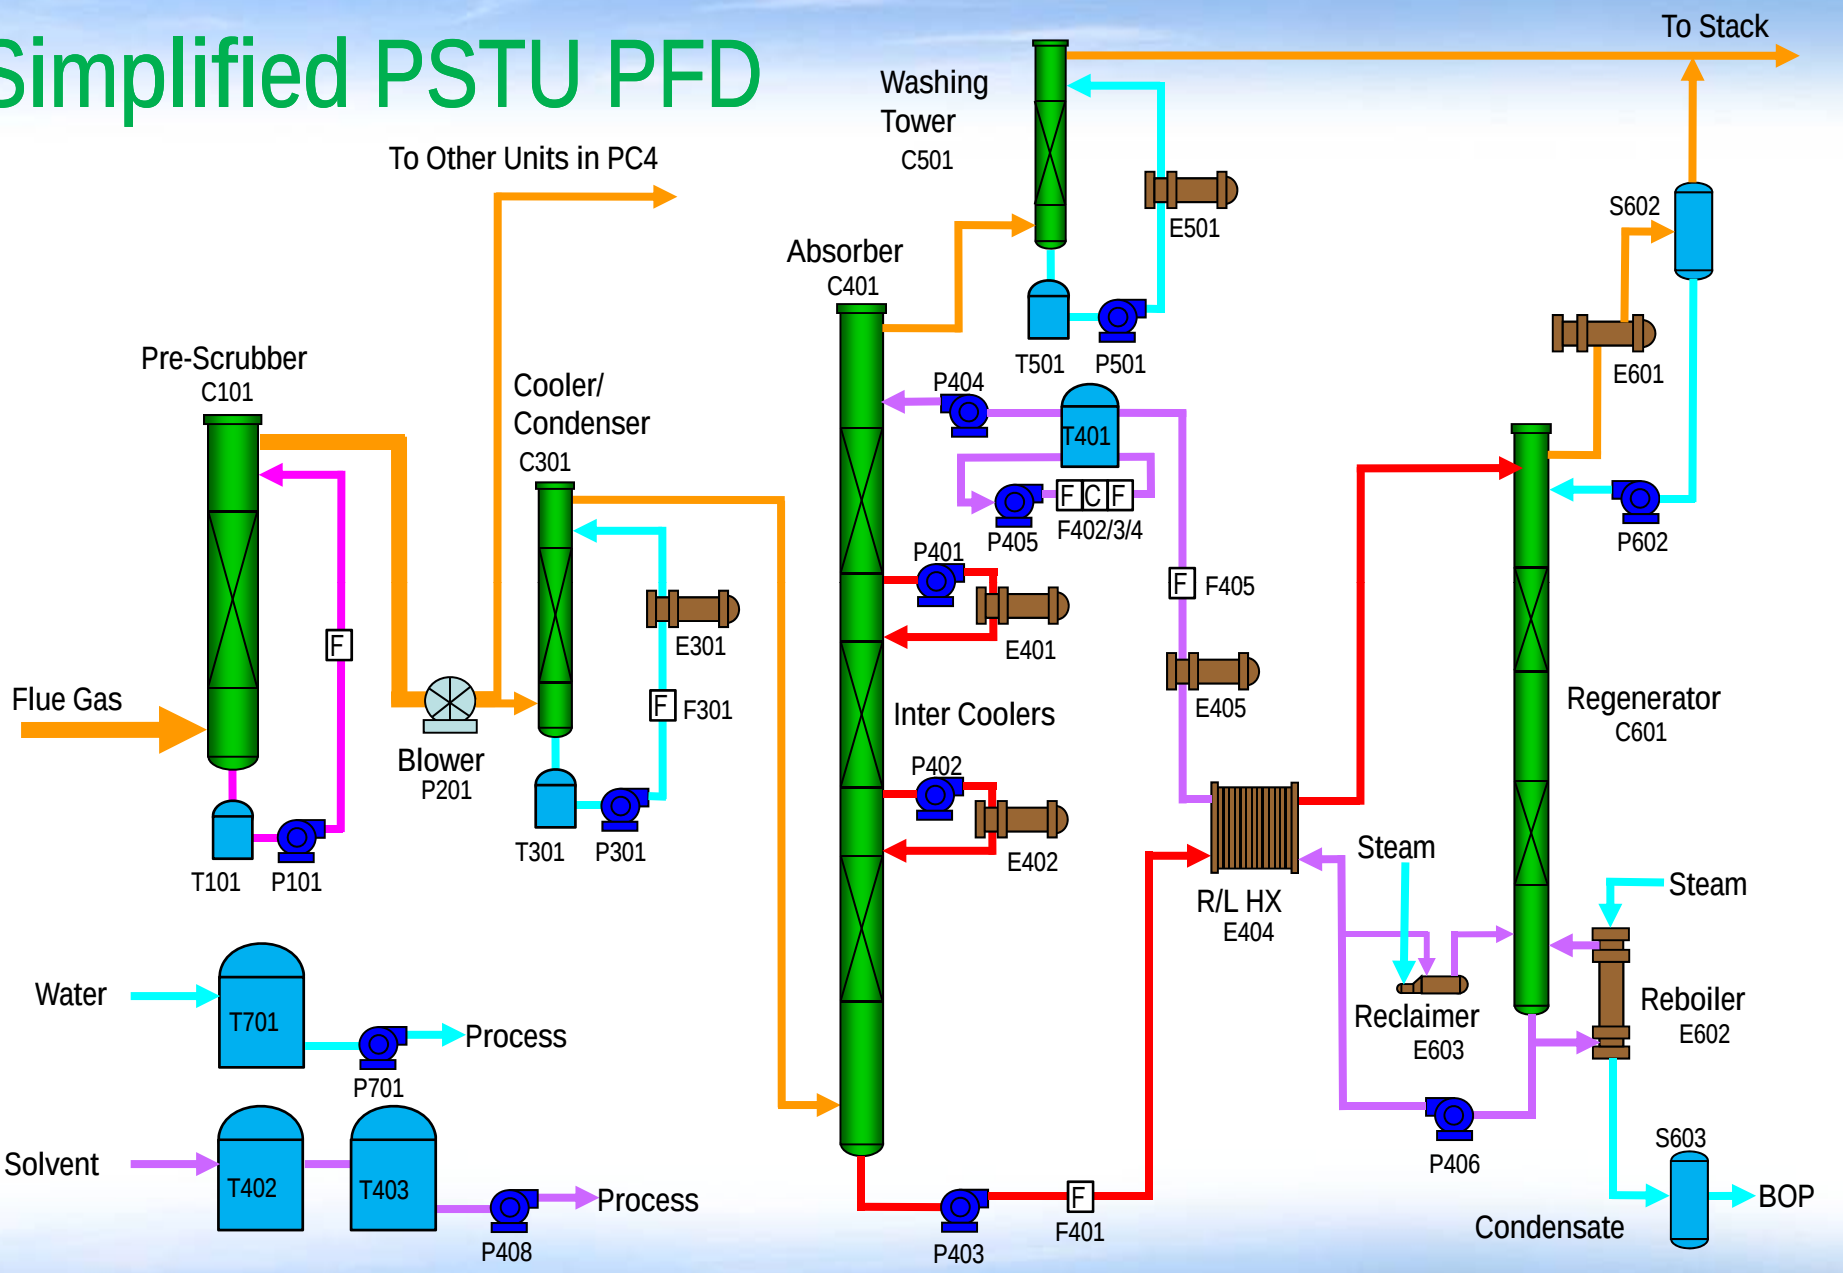
Pilot Solvent Test Unit

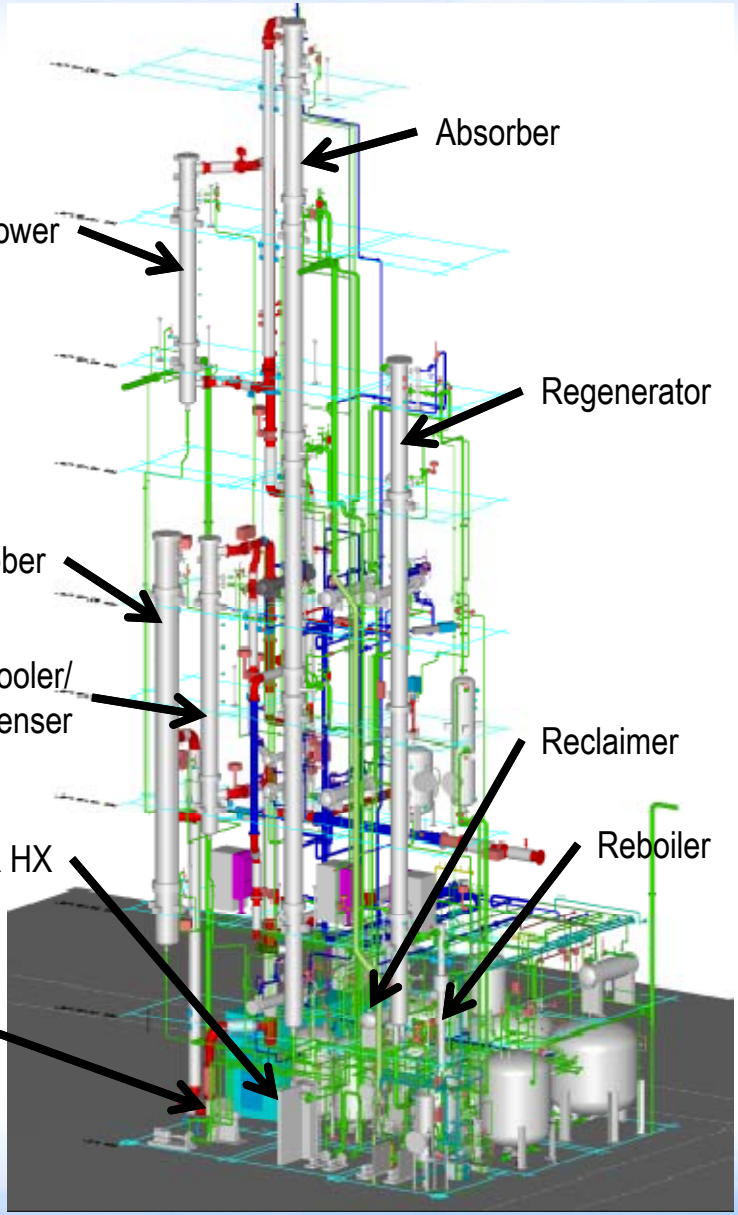
- Build a highly flexible test bed using a real flue gas for post-combustion CO_2 capture
- Long-term testing of newly-developed and potential solvents from 3rd party developers
- Baseline solvent for sizing: 20-30%wt MEA
- Overall CO_2 removal rate: ≥ 90%
- Flue gas flow rate: 5,000 lb/hr (~0.5 MW, ~10 t/d CO_2)
- Turndown ratios: 2:1 for gas, 3~5:1 for liquid
- Modular structure arrangement
- Flexible process configuration and testing conditions

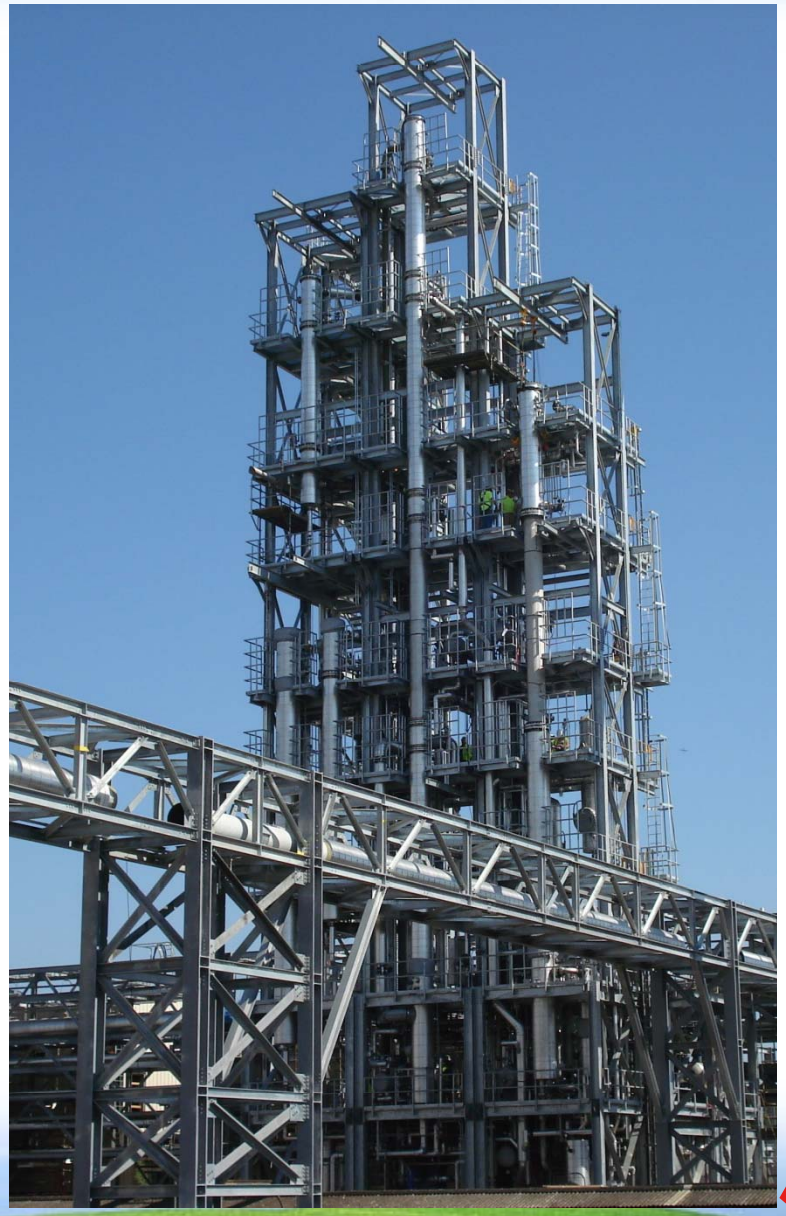
SOUTHERN COMPANY

Simplified PSTU PFD



PSTU – A Flexible Test Platform





SOUTHERN COMPANY

Next Steps

- Complete PSTU and BOP Installation
- System Integrity and Functional Check
- PSTU/BOP System Commissioning
- Baseline Tests with MEA
- Test New Solvents from Developers

SOUTHERN COMPANY

PSTU Test Planning

Item	Media	Tentative Schedule	Duration
Commissioning	Water & 20% MEA	4Q ‘10 – 1Q ‘11	As Needed
Baseline Run	MEA	1Q , 2011	500~1000 hr
B&W	New Solvent	2Q, 2011	TBD
Developer A	New Solvent	TBD	TBD
Developer B	New Solvent/System	TBD	TBD
Developer C	New Solvent/System	TBD	TBD
…	…	…	…

PSTU Equipment Design Validation

Items:

- Hydraulic Performance (Q, P, ΔP, H, …)
- Thermal Performance (E, T, ΔT, Approach, Heat Loss, …)
- Instrument Accuracy and Rangeability
- Control Logic and Strategy (Global, Local, …)
- Operability and Flexibility (Robustness, Turndown, …)

Methods and Approaches:

- Separate and Independent Measurements of Key Parameters (Cross-Check)
- Calibrations of Key Instruments
- Heat and Material Balance
- Modeling and Simulation
- Gas and Liquid Analyses (Lab Analysis to Cross-Check)

SOUTHERN COMPANY

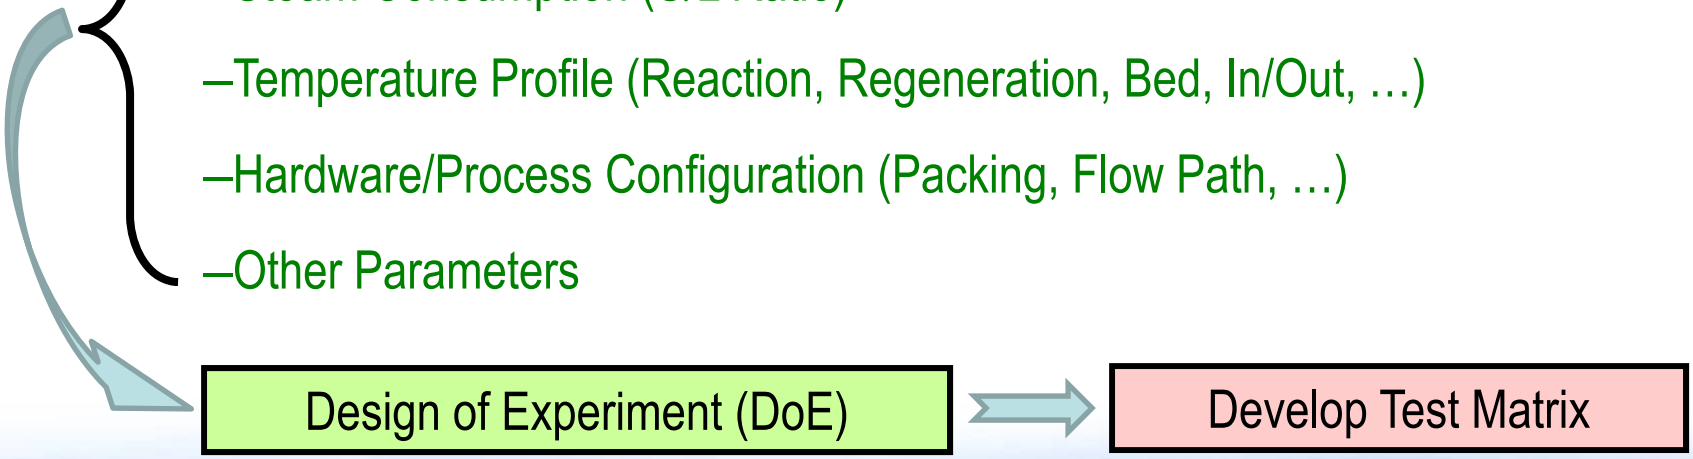
Performance Evaluation

Objective: CO_2 Removal ≥ Goal (e.g., 90%)

While: Minimizing Energy and Water Consumption

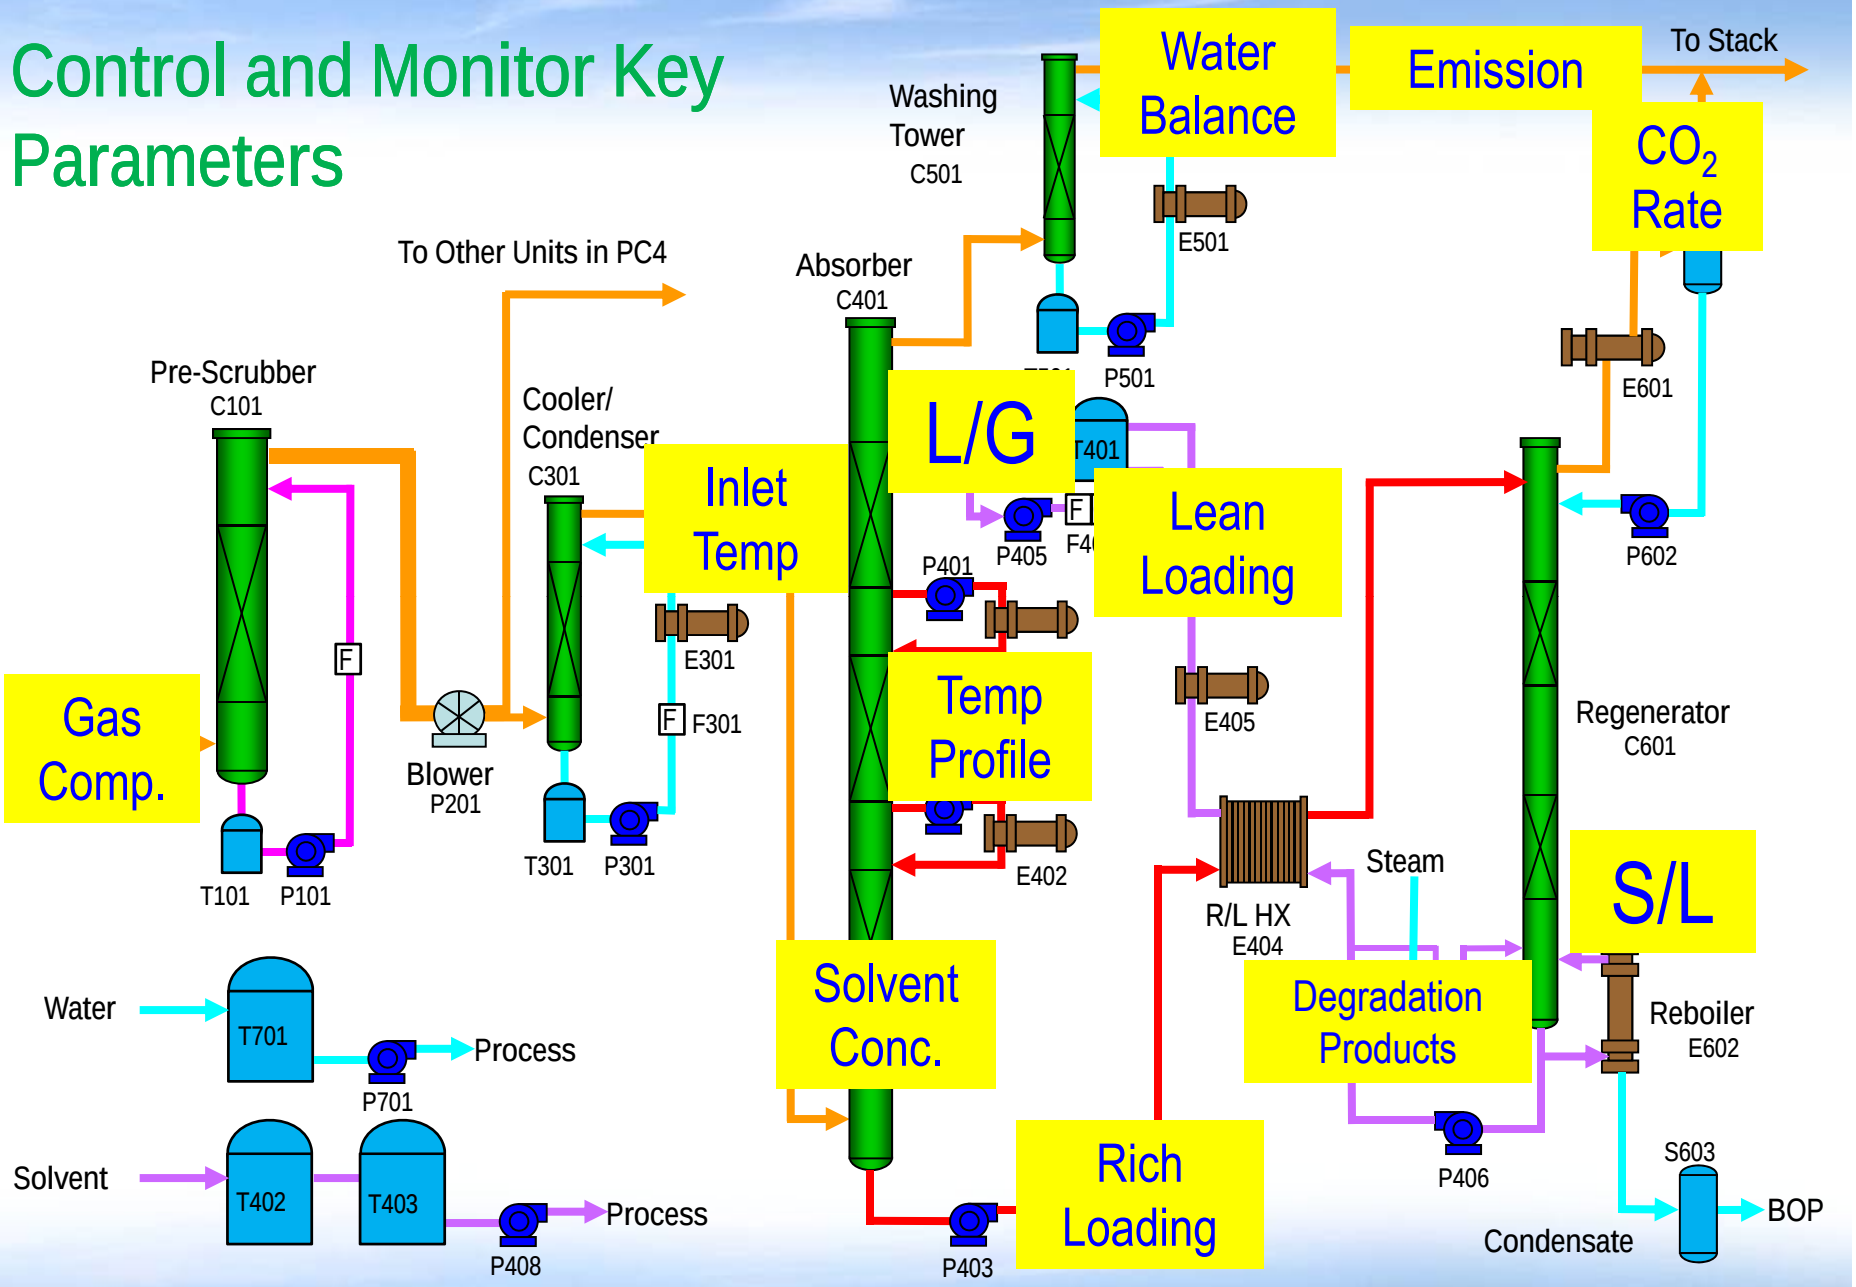
By Optimizing:

- –Lean and Rich Loading (CO_2/Solvent)
- –Solvent Circulation Rate (L/G Ratio)
- –Steam Consumption (S/L Ratio)
- –Temperature Profile (Reaction, Regeneration, Bed, In/Out, …)
- –Hardware/Process Configuration (Packing, Flow Path, …)
- –Other Parameters



SOUTHERN COMPANY

Control and Monitor Key Parameters



Solvent Evaluation

- Kinetics
- Loading Capacity
- Heat of Reaction
- Regeneration Energy Consumption
- Degradation Potential and Products
- Corrosion Intensity
- Others

SOUTHERN COMPANY

Summary

- Our Objective – Establish a Flexible Test Bed
- Our Mission – Test New Solvents
- Our Results – Get Data to Advance Technology
- Our Status – It Will Be Ready Soon

SOUTHERN COMPANY

Post-Combustion Site Preparation

SOUTHERN COMPANY

Site Preparation & Plant Tie-Ins

Reroute Underground Piping & Underground Firewater System
