PROJECT TITLE : The Mid-Atlantic Electrification Partnership: An Electrification Ecosystem of Intermodal Leadership and Intercity Travel								
	Funding Opp	ortunity Announcement Number DE-FOA-0002197	Procurement Instrument Number NETL-0009225	NEPA Control Number NETL-0009225-0069	CID Number			
Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Policy 451.1), I have made the following determination:								
CX, EA, EIS APPENDIX AND NUMBER: Description:								
A9	A9 Information gathering, Information gathering (including, but not limited to, literature surveys, inventor		urveys, inventories, site visits, and audits), data analysis (including, but not limited to, compute tudies), and information dissemination (including, but not limited to, document publication and of appendix B to this subpart.)					
development, laboratory pilot projects operations, and pilot projects utilities and		ting, construction, modification, operation, and decommissioning of facilities for smallscale research and development projects; conventional laboratory operations (such as preparation of chemical standards and sample analysis); and small-scale ot projects (generally less than 2 years) frequently conducted to verify a concept before demonstration actions, provided that construction or modification would be within or configuous to a previously disturbed or developed area (where active lillies and currently used roads are readily accessible). Not included in this category are demonstration actions, meaning actions that are undertaken at a scale to show whether a technology would be viable on a larger scale and suitable for mmercial deployment.						
	5.1 Actions to conserve energy water	substances. These actions may involve financial and technica Covered actions include, but are not limited to weatherization efficient lighting, low-llow plumbing futures (such as faucets, dificiency ratings; efficiency improvements for vheaties and tra signal control systems, car navigation, speed cameras, and a development and small-scale plot projects. Covered actions is establish energy conservation standards for consumer produc manufacturing plants with considerable associated around dis	I energy or water conservation, and promote energy efficiency that would not have the potential tassistance to individual (such as builders, owners, consultants, manufacturers, and designer (such as insultants), programmed lowering of thermostat set ollets, and showerheads), heating, ventilation, and air conditioning systems, and appliances in propriation (such as fleet changeout), power storage (such as flywheets and batteries, genera atomatic plate number recognition), development of energy-efficient manufacturing, industriat, include building revolutions or new stuctures, provided that they occurs in a previously disturbe to not include rulemakings, standard-settings, or proposed DDE legislation, except for those a sund industriat equipment, provided that the actions would not (1) have the potential to caus turbance). (2) involve significant unresolved conflicts concerning alternative uses of availatior in risks to human health and the environment (such as RCRA hazardoux wastes); or (4) have	rs), organizations (such as utilities), and governments (such tings, placement of timers on hot water heaters; installation stallation of drip-irrigation systems; improvements in gener- ally less than 10 megawatt equivalent); transportation manag- or building practices; and small-acale energy efficiency and of ordeveloped area. Covered actions could involve comme do redeveloped area. Covered actions could involve comme e a significant change in manufacturing infrastructure (such e sources (such as gree or imilect any materials; (3) have th the sources (such actions).	as state, local, and tribal). or replacement of energy ator efficiency and appliance gement systems (such as traffic conservation research and ricial, residential, agricultural, s include rulemakings that as construction of new the potential to result in a			
	5.23 Electric vehicle charging ations	The installation, modification, operation, and removal of electri in accordance with applicable requirements (such as local land	ic vehicle charging stations, using commercially available technology, within a previously distu d use and zoning requirements) in the proposed project area and would incorporate appropriat	rbed or developed area. Covered actions are limited to area te control technologies and best management practices.	s where access and parking are			

Rationale for determination:

NEPA PROVISION

DOE has made a conditional NEPA determination

The NEPA Determination applies to the following Topic Areas, Budget Periods, and/or tasks:

The NEPA Determination does not apply to the following Topic Area, Budget Periods, and/or tasks:

A completed EQ is required for the TBD location sites/charging stations. A separate NEPA review is required for the TBD location sites. This CX covers all activities except the TBD location sites.

Notes:

This project number and recipient have previously received a CX on previous work. This new CX has been signed due to the recipient adding additional project locations. The control number reflects the prime recipient has received multiple NEPA determinations. As noted by the NEPA Control Number NETL-0009225-0069 this is the 69th CX associated with the initial award.

FOR CATEGORICAL EXCLUSION DETERMINATIONS

The proposed action (or the part of the proposal defined in the Rationale above) fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D. To fit within the classes of actions listed in 10 CFR Part 1021, Subpart D, Appendix B, a proposal must be one that would not: (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders; (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment actions or facilities; (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that precisis in the environment such that there would be uncontrolled or unpermitted releases; (4) have the potential to cause significant impacts on environmentally sensitive resources, including, but not limited to, those listed in paragraph B(4) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or paragraph B(5) of 10 CFR Part 1021, Subpart D, Appendix B; (5) involve geneticall

There are no extraordinary circumstances related to the proposed action that may affect the significance of the environmental effects of the proposal.

The proposed action has not been segmented to meet the definition of a categorical exclusion. This proposal is not connected to other actions with potentially significant impacts (40 CFR 1508.25(a)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211 concerning limitations on actions during preparation of an environmental impact statement.

A portion of the proposed action is categorically excluded from further NEPA review. The NEPA Provision identifies Topic Areas, Budget Periods, tasks, and/or subtasks that are subject to additional NEPA review.

SIGNATURE OF THIS MEMORANDUM CONSTITUTES A RECORD OF THIS DECISION.
