Grid Resilience Innovation Partnerships Program
State of Louisiana: HERO Project

Potentially Duplicative Funding Notice

SUBRECIPIENT: City of New Orleans

City of New Orleans has identified that it has other active awards of federal funds. After a review, the following potential overlap(s) exist(s):

- (b) (4)
-

City of New Orleans will ensure that any project funds – both cost share and federal funds – will not be used for identical cost items under multiple awards. In the event the same location receives funding for pilot projects, City of New Orleans will replace those pilot projects with alternative pilot project locations that meet the program requirements, as there are extensive additional potential pilot projects meeting the need.

In the event personnel time has been proposed under multiple awards, the City of New Orleans will ensure that time is tracked separately for each funding opportunity and no overlap occurs.
